The holder has 2 slots, one above the other. The one you will use to thread your cable ties depends on your mask.
    (1) If the bridge of the nose aligns with the higher point, use the upper slot.
    (2) If the bridge of the nose aligns with the lower position, use the lower slot.
    See the Galileo HUD Manual - 1.3 Mounting the holder to the mask - step 6.

* Shorten the tiny legs as needed with the side cutters.
    See the Galileo HUD Manual - 1.3 Mounting the holder to the mask - step 2.

** Also applies to Combo (Mask & Snorkel set)
